MARYLAND DEPARTMENT OF HUMAN RESOURCES Child Care Administration

HEALTH INVENTORY - ADDENDUM

CHILD'S PERSONAL RECORD FOR CHILD CARE CENTERS, FAMILY CHILD CARE HOMES, AND NON-PUBLIC NURSERY SCHOOLS AND KINDERGARTENS

Under Maryland law, a child under six years of age who is admitted to child care must have appropriate screening for lead poisoning. Parent(s) or guardian(s) must submit evidence of this screening to the child care provider within 30 days of admission to care. Under Maryland law, children who reside (or have ever resided) in certain areas of the State designated as at-risk for childhood lead poisoning <u>must</u> receive one or more blood lead tests. The at-risk areas requiring blood lead testing, and instructions for that testing, are specified on the back of this form.

| To be completed by a HEALTH PRACTITIONER: | | | |
|--|-------------------------|-----------------------------------|--|
| Child's Name has received appropriate lead screening and/or blood lead te | esting. | Child's Birth Date | |
| NOTE - If this child resides, or has ever resided, in an area list information about the child's blood lead testing: | | rovide the following Test #2 Date | |

At Risk Areas by Zip Code and Blood Lead Testing Instructions

Under Maryland law, children who reside, or have ever resided, in any of the at-risk zip codes listed below must receive a blood lead test at 12 months and 24 months of age. Two tests are required if the 1st test was done prior to 24 months of age. If a child is enrolled in child care during the period between the 1st and 2nd tests, his/her parents are required to provide evidence from their health care provider that the child received a second test after the 24 month well child visit. If the 1st test is done after 24 months of age, one test is required. The child's health care provider should record the test dates on this form and certify them by signing or stamping the signature section of the form. All forms should be kept on file with the child's health records.
