

Summer Math

Summer Math is the IXL program. The web address is www.ixl.com/signup/smsch. The skills, which will be noted with a yellow star, will be available on Monday, June 11, 2018 after 3:00 P.M. Each student should work the skill until a score of 90% is attained. Students will be graded on the completion of all skills at a 90% rate.

THE REQUIREMENT FOR EACH STUDENT IS TO WORK ON THE YELLOW-STARRED SKILLS OF THE GRADE THAT THERE WERE IN THIS SCHOOL YEAR 2016-2017.

That means if

- your child just completed kindergarten, he/she should do the yellow-starred K skills
- your child just completed 1st grade, he/she should do the yellow-starred 1st grade skills
- your child just completed 2nd grade, he/she should do the yellow-starred 2nd grade skills
- your child just completed 3rd grade, he/she should do the yellow-starred 3rd grade skills
- your child just completed 4th grade, he/she should do the yellow-starred 4th grade skills
- your child just completed 5th grade, he/she should do the yellow-starred 5th grade skills
- your child just completed 6th grade, he/she should do the yellow-starred 6th grade skills
- your child just completed 7th grade, he/she should do the yellow-starred 7th grade skills

The purpose of the math summer work is to assist the students in maintaining their basic math skills. These are important building blocks to success in all levels of Math. If you have any questions, please email Mrs. Keri Geibler at kgeibler@smsch.org.
